

SERHII YAREMCHUK

JavaScript Developer

syaremchukk@gmail.com | t.me/Seryare | github.com/s-yaremchuk | s-yaremchuk.github.io/CV_website | Lviv, Ukraine

PROFILE

3rd-year Computer Science student at Ivan Franko National University of Lviv with a confident, hands-on grasp of JavaScript (ES6+), HTML and CSS, and practical experience building complete applications with React. Comfortable across the frontend (UI, state management, responsive design) and getting increasingly comfortable with backend fundamentals (Node.js, REST APIs, OAuth). Has shipped two full personal projects from scratch, is intermediate-level across core programming languages, and is actively growing through university coursework, online courses and AI-assisted development practice. Looking for a Trainee/Junior JavaScript Developer role — frontend, backend or full-stack — to keep learning and contribute on real products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3; intermediate across core programming languages

Frontend: React 18, React Router, Context API, CSS Modules, Vite, responsive/mobile-first design

Backend & APIs: Node.js & Express basics, REST API design, OAuth 2.0 (PKCE), SQL/NoSQL fundamentals

Tools: Git & GitHub, npm, ESLint, Postman, Chrome DevTools, VS Code

Practices: Component architecture, form validation, state management, AI-assisted development (GitHub Copilot, ChatGPT/Claude)

PROJECTS

Railway Ticket Booking App (Ukrzaliznytsia) *React 18 · React Router · Context API · CSS Modules · Vite*

- Built a complete multi-page booking application: train search/filtering, wagon selection with dynamic pricing, an interactive real-time seat map, and a validated passenger booking form.
- Designed the data/service layer handling reservation storage and retrieval, plus a global Context-based state shared across all views.
- Added toast notifications and made the layout fully responsive (CSS Grid, horizontal-scroll seat map on mobile).
- GitHub: github.com/s-yaremchuk/WEB-project-Modul2

UA Pomodoro — Swiss Focus Timer *Vanilla JavaScript (ES Modules) · CSS · Spotify Web API · Web Audio API*

- Built a Pomodoro focus-timer app with a custom design system, three timer modes, Fullscreen mode and keyboard shortcuts.
- Implemented a secure OAuth 2.0 (PKCE) flow and integrated the Spotify Web Playback SDK for real-time playback control.
- Generated audio feedback with the Web Audio API and persisted settings with localStorage.
- GitHub: github.com/s-yaremchuk/Ua_pomodoro

Frontend Coursework Labs *HTML5 · CSS3 · JavaScript*

- University labs (Lab 7–10) building semantic HTML, responsive CSS layouts and JavaScript DOM-manipulation fundamentals.
- GitHub: [Lab7](#), [Lab8](#), [Lab9](#), [Lab10](#)

EDUCATION

Ivan Franko National University of Lviv (LNU) — B.Sc. in Computer Science

3rd-year student | Expected graduation: 2028

ADDITIONAL INFORMATION

- Languages: Ukrainian (native), English (Intermediate, B1–B2)
- Version control: Git & GitHub — github.com/s-yaremchuk
- Open to internship / trainee / junior positions and relocation-free remote work
- No prior commercial experience — actively building a project portfolio and expanding practical skills
- Intermediate proficiency across core programming languages, with steady, ongoing improvement
- Familiar with AI-assisted development workflows (e.g., GitHub Copilot, ChatGPT/Claude) for coding, debugging and learning
- Committed to continuous learning — regularly practicing through personal projects and coursework
- Currently completing additional online courses in web development to further strengthen practical skills alongside university studies
